### **EMSI Office Relocation Keeps 100 Jobs in Omaha And Avoids Displacement of Employees**

**Governor Dave Heineman and Mayor Jim Suttle to attend Grand Opening and Ribbon Cutting Ceremony July 14, 2010 at 11:00 a.m.**

**Scottsdale, AZ – July 14, 2010** – Examination Management Services, Inc. (EMSI), the largest provider of medical record retrieval services in the nation, recently relocated its Omaha operations to a new facility in Omaha after reviewing bids from other cities within Nebraska and out of state.

Governor Heineman and Mayor Suttle are scheduled to join EMSI's chief executive officer (CEO), Mark Davis, in a ribbon-cutting ceremony to celebrate the opening of the new facility. Local EMSI customers, other Omaha business associates, the Greater Omaha Chamber and EMSI employees will also attend the event.

The new 14,600-square-foot facility located at 9625 M Street in Omaha will house all of EMSI's current 100 employees with additional capacity to expand to 154 as operations grow. The relocation allows EMSI to improve workspaces, upgrade technology, create workflow efficiencies, better serve customers and reduce the company's environmental footprint.

"We're elated that we were able to find a facility right here in Omaha that meets our needs and allows our employees to continue working in completely renovated workspaces less than two miles from the old location," said EMSI CEO Mark Davis. "The new facility not only allows us to serve customers faster and heightens quality, but also reduces expenses and energy consumption."

"Retaining and expanding our existing businesses is essential to economic growth," said Gov. Heineman. "This is good news for Nebraska. It will keep EMSI's 100 jobs in Omaha. The new facility increases the potential to expand operations."

EMSI's Omaha operations houses one of the company's five regional call centers. After obtaining proper authorizations, employees contact medical facilities to retrieve medical records for insurance underwriting or claims processing. Using state-of-the-art technology, the records are efficiently and confidentially scanned, reviewed and quickly delivered electronically to the insurance carrier offering the policy via a secured connection, following all applicable privacy laws.

EMSI worked with architectural and construction experts to make tenant improvements to the selected location. Renovations were complete in May 2010, creating a
