### EMSI Launches Improved Web Site that's More Powerful

**Scottsdale, AZ – August 1, 2006** – Examination Management Services, Inc. (EMSI) today announced the launch of a new version of its popular Web site, EMSIOnline. EMSIOnline version 5.0 has expanded search functions, better management tools for organizing cases, requires less data entry and is faster.

EMSI developed the new version in response to customer and user feedback regarding the need for more features and enhanced management tools to effectively manage cases. EMSIOnline not only addressed customer concerns, but also made improvements like color codes for tracking order status, easy resolution for flagged cases and a new look for the entire site.

"EMSIOnline 5.0 demonstrates our commitment to building strong and lasting relationships with our customers by providing innovative solutions to their business needs," commented Mark Davis, president and chief executive officer. "We redesigned the Web site entirely with our customers in mind."

EMSIOnline 5.0 will be fully launched by early August and EMSI plans to consolidate other ordering platforms into EMSIOnline by the end of 2006.

EMSIOnline is a single-source Web location for ordering, checking status and viewing results for paramedical exams, attending physician statements (APs), inspection reports and motor vehicle reports (MVRs). For more information on EMSIOnline or the launch of the new version, contact an EMSI sales representative.

#### About EMSI

Examination Management Services Inc. (EMSI) has a 30 year history as a leading provider of medical information, risk management and investigation services to the insurance, legal, clinical and business communities. EMSI delivers customized risk management solutions through six regional call centers, a national service center in Irving, TX and a nationwide network with more than 230 branch offices serving 15,000+ cities and rural areas.
